# How do you generate buy-in for SEL?

1. Why do you need to generate buy-in when implementing SEL?
2. Panel Discussion
3. Q&A

# Audience Poll

Use your emotional vocabulary to let us know:

How are you feeling right now?

(Answer in the Chat!)

According to research from Glimpse K12,  
67% of educational software product  
licenses go unused. That accounts for an  
estimated \$5 billion in funding!

## Common Barriers to Buy-In

- ★ “We don’t have the time!”
- ★ “Where does this fit in?”
- ★ Adults may not have experienced SEL themselves growing up and don’t understand how it “fits in” with school.
- ★ Adults may also struggle with their own emotional intelligence, or have experienced trauma.
- ★ Adults can be cautious about “giving students a prescribed way to feel.” (That’s not SEL!)

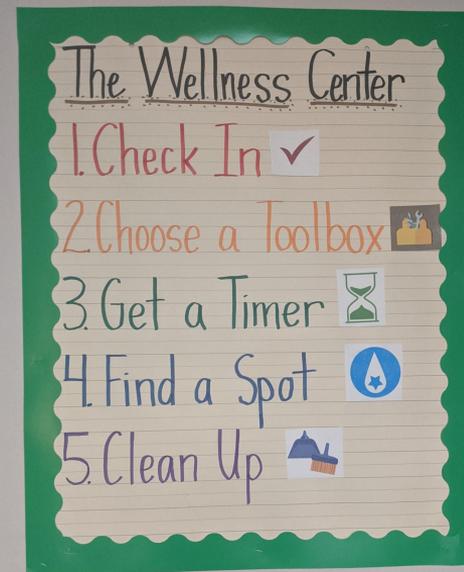

What does SEL look like in  
your school?

Wellness Center at  
Oquirrh Elementary  
School

Wellness Center at  
Oquirrh Elementary  
School

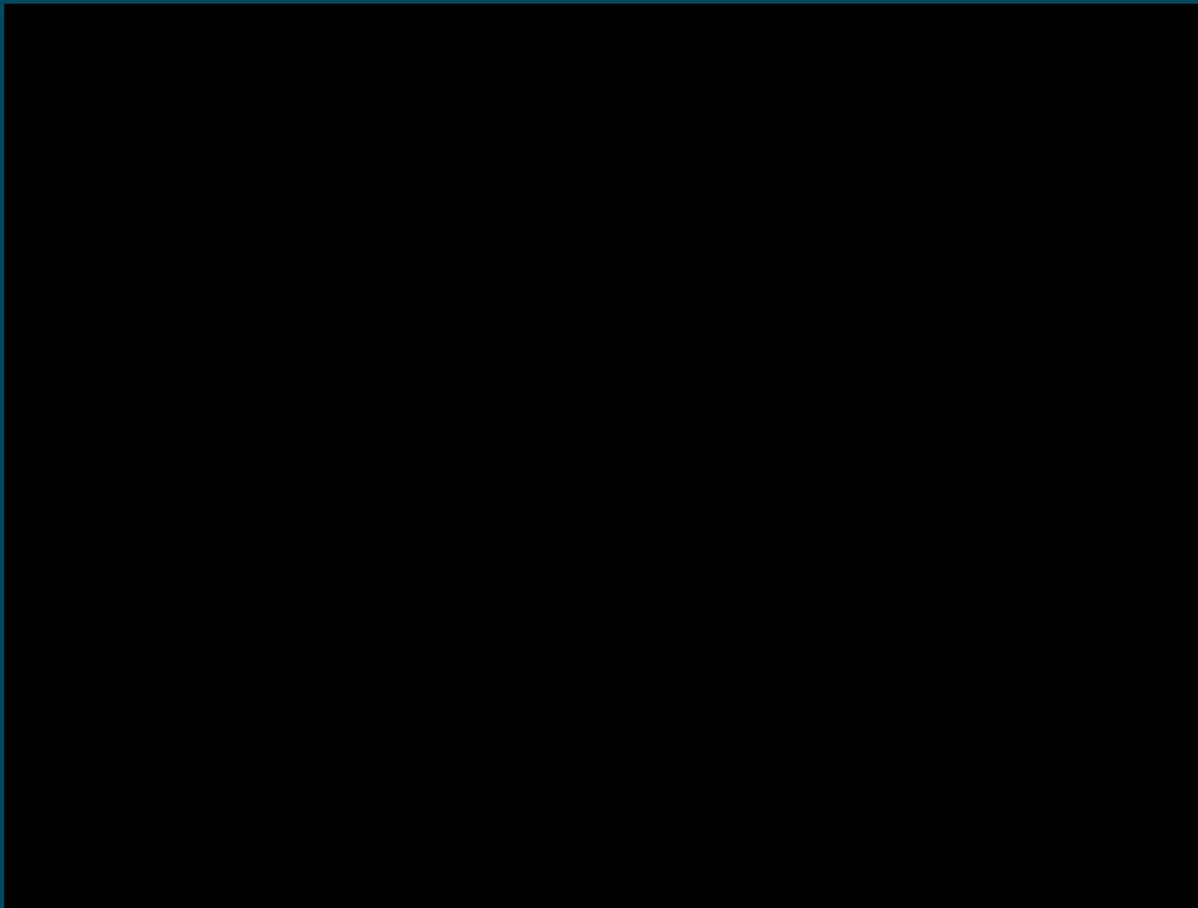

What was your first step to generate buy-in for SEL in your school?

How were you able to  
generate buy in from  
different stakeholders?  
Teachers, Parents, Students,  
Administrators

What challenges have you faced when generating buy-in for SEL? How did you overcome these challenges?

How has generating buy-in  
for SEL impacted your  
school community?

What was the most  
successful thing you've  
done to generate buy-in for  
SEL?

What are some of your  
goals or next steps  
moving forward?

What advice do you have  
for schools that are just  
starting to bring SEL to  
their communities?
